

## Project Sprint Planning Notes

Team: SEPT-THURS-18.30-04

Sprint: 1

Date: 19/08/2020

Attended:

Scrum Master: Jia Bang Vuong

Product Owner: Sophia Nguyen

Development team:

Jessica Michelle

Han Chien Leow

Unattended:

Jacob Morris

### 1. Goal

The goals of the sprint include:

(High Priority)

- Logging in functionality
- Website UI to display above functionalities

||

- Logging out functionality
- Signing up functionality

(Low Priority)

- Adding more to API for different user types
- Deploying project to AWS
- Continuous Integration + Automated Build

### 2. Duration of the sprint

The sprint will run from 19/08/20 to 31/08/20.

### 3. What is the team's vision for this sprint?

The team's vision for this sprint will be to attempt to finish the high priority goals, with the low priority goals being more like extra tasks for the sprint.

The items chosen for this sprint are the following user stories:

Story No.	User Story	Effort
5	As a worker, I want to access my profile, so that I can see my assigned hours/days and services.	5
9	As a registered user, I want to log into my AGME account, so that I can gain access to my personal dashboard.	5
11	As an unregistered user, I want to be able to sign up an account, so that I can login and use the online booking service.	5
13	As a guest user, I want to sign up for an AGME account, so that I can have my personal dashboard.	5
50	As an admin, I want to be able to log into my account, so that I can view my business details.	5

### 4. Estimation in story points

In terms of story points, each story chosen for this sprint had an estimated effort of 5. The effort is the same for all stories, as each team member believed that the stories all required an equal amount of time to fulfill.
